History: This message has been forwarded.

I looked and the best information I can find indicates that the mill stopped operating in November of 1981. The information for December indicated that the mill had been mothballed and cleaning was underway.

The slurry line is still in place.

I will not forget that forever part.

Kerry

Kerry;

Sorry for the additional pain... but.. If you could find out when the Ontario Mill stopped operating and what happened to the slurry line, I would be forever in your debt. It will just draw a more complete picture.

Thanks,

Kathy

I don't know when the actual operation of the mill stopped. It would take some time to find that out. The lease was terminated on April 1, 1982. Let me know if you want me to dig deep for the mill cessation date.

Kerry

When did noranda stop operating the mill? Did Ontario then close?
